15th Anniversary Global Family Office Investment Summit

30 June, 1-2 July 2021. Fairmont Monte Carlo Hotel

“World’s No. 1 Family Office Conference” & “The Most Exclusive & Influential Gathering of Family Wealth ever held, where family office investing is not quarantined”

Hosted by **Sir Anthony Ritossa**, Chairman of **Ritossa Family Office**, headquartered in Dubai, with deep roots into Europe & the Middle East. Sir Anthony is a family office influencer, thematic investor with interests in private equity, real estate, blockchain companies, educator, philanthropist, and a 2021 nominee for the Nobel Peace Prize. This is the 15th event in a Global Series covering Dubai, Monaco, Riyadh and Miami - and the fifth consecutive year in Monaco. The most recent Summit in Dubai made global headlines as the most significant & influential gathering of world leaders and family office investors of all time.

In light of social distancing measures we are excited to host a limited number of ultra exclusive **300 Elite Family Offices, Prominent Conglomerate Business Owners, Sheikhs, Royal Families, Private Investment Companies, International Business Moguls, Sovereign Wealth Funds, & industry professionals** representing **over \$4.5 trillion** in investor wealth and making it **the world's most influential gathering of elite family office decision makers**, with an investor delegate ratio of 3:1.

“Family Offices Working Together to Invest for a Brighter Future” is the theme for our Monaco Summit & will act as a bridge between European families, and their Middle East, U.S., Asian, & Latin American counterparts to meet, network and exchange information and ideas to start the journey of discovery and venturing together between like minded peers in a safe-harbour environment.

The summit is a private forum **exclusively organised by family offices for family offices**, ultra elite private investors, prominent business owners, Sheikhs, Royal family members, financial families and their private offices from around the world. The summit brings together the **world’s leading experts** geared toward **identifying actionable strategies** for generating returns in a low-rate, high volatility market. Facilitated by family offices, the summit will provide two days of **private peer-to-peer conversation, networking** and **cross-border thought leadership** designed to make you think about what to look out for, how we are investing, and why?

“The most highly acclaimed gathering of Global Wealth of all time.”

“I have produced literally thousands of events and conferences around the world and never have I found such a broadness of vision and project. The official support of Sheikh Al Nahyan and the Monaco Prince, the presence of the heirs of Bahrain and Yugoslavia Royal families, the heirs of Reynolds, Rockefeller, Bismarck, Muhammad, Menelik, Selassie and most innovative global finance platform is something unheard of before. Your event ranks in first place as the most astonishing and inspired world summit. I’m very proud to collaborate.” Matteo Peri, CNBC Europe.

Special message from Sir Anthony Ritossa: "It is an honour to welcome our esteemed guests from the Bitcoin Association to the 15th Ritossa Global Family Office Investment Summit in Monaco. The company's expertise will add great value to the Summit discussions, especially in light of the fact that topics related to "Blockchain for a Better World" are top of mind with delegates who are seeking new investment opportunities and ways to be more actively involved in the blockchain sector. Indeed, blockchain impacts the future of healthcare, government, philanthropy, and virtually all facets of the business world. Its implications are tremendous on so many levels and we look forward to learning more about the possibilities during Bitcoin SV's presentation series on July 1st and 2nd."

Dec 13th 2018 | DUBAI

HUSSEIN SAYED, a local anchor with CNBC, a TV network, beams from the stage as he welcomes participants to a conference on family offices (FOS) in Dubai. Among those present are billionaires and their offspring, advisers and money managers, and a smattering of investment-minded blue-bloods, including Prince Michael of Yugoslavia. "We think there may be over \$2trn represented in this room," announces Mr Sayed, "though of course there's no way of knowing."

"I have produced literally thousands of events and conferences around the world and never have I found such a broadness of vision and project.
